

Individual Call to Scientific Employment Stimulus

5th Edition

CALL FOR APPLICANTS

The Institute of Contemporary History (IHC), a leading Portuguese research centre in the field of Modern and Contemporary History, welcomes applications for six-years Research Contracts, funded by the FCT - Foundation for Science and Technology, acting as host institution, in the framework of the fifth edition of the Individual Call to Scientific Employment Stimulus. Prospective evaluation panels for this call include 'History and Archaeology', 'Arts', 'Sociology', 'Media and Communications, Law and Political Science', 'Languages and Literature', 'Philosophy, Ethics and Religion', 'Agriculture, forestry and fishery', 'Earth and environmental sciences', 'Economics and Business, Social and Economic Geography', and 'Educational sciences'.

Working at the IHC means to be a member of a multicultural, creative, collaborative, and publicly engaged environment that gathers more than 200 researchers arising from the fields of History, Anthropology, Archaeology, Sociology, Arts, and others. As a modern and contemporary history research centre working on a broad range of topics, we regularly collaborate with the media, museums, archives, city councils, and high schools.

Prospective applicants should present their research plan bearing in mind the IHC's scientific agenda, as reflected on its cross-cutting Thematic Lines and Research Groups, as well as the conditions set forth in the Stimulus of Scientific Employment programme. Applicants with a relevant track record of securing funding for their research activities are especially welcomed.

The IHC has facilities both at NOVA University Lisbon and at the University of Évora. We are also a member of the newly-created IN2PAST, the Associate Laboratory for Research and Innovation in Heritage, Arts, Sustainability and Territory, and the host of the Digital Humanities Lab, an interdisciplinary space where knowledge in the Arts and Humanities converges with methodologies from the Computational Sciences. The IHC thus fosters interdisciplinary approaches and covers a wide range of topics concerning the conceptualisation, contextualisation, and interpretation of the historical reality for the period between the late eighteenth century and the present time.

The IHC is funded by National funds through FCT — Fundação para a Ciência e a Tecnologia, I.P., under the projects UIDB/04209/2020 and UIDP/04209/2020

Individual Call to Scientific Employment Stimulus

5th Edition
